

## Student Guide

### How people use the Powers of Ten in their jobs

As homework, determine how the following jobs use the Powers of Ten. Provide at least one example for each job. Your teacher may assign all from the list or have you do a select number of careers.

1. Technician in a microscopy lab (microscopist)
2. Engineer (any field of engineering)
3. Auto mechanic
4. Pharmacist
5. Carpenter
6. Cosmetologist (Hair Stylist)
7. Farmer
8. Architect
9. Nurse
10. Computer Game Designers
11. Astronomer
12. Electrician
